The women's choir -Večernica operates within the frame of the Pensioners Association Ajdovščina. The choir meets weekly for rehearsals and has over the past three decades become an indispensable part of the local and wider singing community and a genuine musical ambassador of the Vipava Valley.

The singers enchant the audience and strengthen cultural ties with their performances on the singing meetings, choir competitions and events throughout Slovenia, as well as abroad. They have represented their local region several times at singing meetings in Stična. Every year they proudly participate in the choir competitions Zlata jesen and Primorska poje, where they stand out with their heartfelt singing and dedication. With numerous demanding performances, as well as performances of a lighter nature, they have presented themselves in almost all parts of their home municipality and across Slovenia. With pride they sang also abroad: in North Macedonia, Bosnia and Herzegovina, Austria, Italy, Serbia, Belgium, Croatia, Hungary and the Czech Republic. The choir is led by Mr. Miran Rustja, who is also a teacher, writer, poet, storyteller, composer. Without his understanding, persistence and moral support the choir would not be as successful as it is.
